

# TRANSPERE

## “Bringing Clarity to an Obscure World”

Transpere provides ITAD & innovative e-scrap solutions to help our customers meet their environmental, privacy, and value goals while creating a cleaner world.

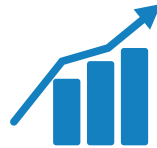

Transpere’s pride lies within providing world class ITAD and electronic recycling services with an inimitable transparent approach that sets industry precedence.

Responsible Recycling

Customized Reporting

Higher Return Value on All Assets

## The Transpere Difference

Transpere’s straight forward approach ensures customer data is protected, maintaining the highest level of environmental compliance in the industry, and maximizing the value of all assets. Many companies in our industry make similar claims, but for us, our key word is **“Transparent.”** Although we are a world class provider in our space, we want our customers and regulatory agencies to have a clear view into our processes, our down streams, and all of the pertinent data they need concerning their material and assets. We feel transparency is key into creating strong, lasting partnerships with our customers.
